		EUGENE KIM PRIMARY EXAMINER			

U.S. Patent and Trademark Office PTOL-303 (Rev. 11-03) Continuation of 5. does NOT place the application in condition for allowance because: the examiner still believes that Kubota's reference discloses a folding cylinder comprising a cover around the cylinder with aperture (Figs. 1 and 2; via 27) and through these aperture finger or blade (via 2) is extending through the aperture, while Chagnon discloses folding cylinder with no cover surounding the cylinder. Therefore, the examiner believes it would be obvious to use Kubota's teaching of having cover around the cylinder in Chagnon's cylinder in order to improve and protect the folding cylinder.
